

International: Support for PSP/MSA/CBD

CurePSP encourages and organizes groups that foster face-to-face communication, exchange of ideas and information, and comforting interaction for families facing a diagnosis of prime of life neurodegeneration. Many people dealing with these feel that others in their lives cannot understand what they are going through, so talking with someone who has been on the journey, and who can provide insight and advice, is very beneficial. The groups are for carepartners, family members, friends, and people with PSP, CBD, MSA, or a related disease looking for comfort and support from others in the community. They are all facilitated by our dedicated volunteers, most of whom have been on this journey and can provide unique insight from a personal perspective. If you are not ready to communicate with a group or are looking for a more one-on-one conversation about the journey you are on, please find the names and contact information of our peer supporters listed state-by-state below. Peer supporters are available for practical conversations, recommendations for doctors, emotional support, or any other type of question. For any further information or to be added to this list, please contact Joanna Teters at teters@curepsp.org
