The CurePSP community is coming together to support the National Plan to End Parkinson’s Act. You can use your voice to create meaningful change in Congress that will prioritize a cure for Parkinson’s and related Parkinsonian diseases.

The National Plan to End Parkinson’s Act is first-of-its-kind legislation that will unite the federal government in a mission to prevent and cure Parkinson’s disease, progressive supranuclear palsy (PSP), corticobasal degeneration (CBD), multiple system atrophy (MSA) and Lewy Body dementia. This legislation has monumental potential to accelerate a cure and care for those living with the parkinsonian diseases and their families, and we need your help to get it passed!

Call your members of Congress to request their support of this bill!

Sharing your unique diagnosis experience and perspective matters. Lawmakers record how many calls they get on a particular bill, especially when you explain why the bill is important to you.

When you are ready, you can call Congress directly from your phone by looking up your senators’ and representatives’ office numbers online or by calling the U.S. Capitol Hill switchboard at 202-224-3121 and asking to be connected to their offices.

We encourage you to use this customizable phone script.

Hello! My name is [your name], and I live in [your city/state].

How can I help you?

I am calling to ask [Representative/Senator ___________________] to co-sponsor the National Plan to End Parkinson’s Act. It is bill number H.R. 2365/S. 1064.

What does the bill do?

The National Plan to End Parkinson’s Act is bipartisan, no-cost legislation that would create an advisory council to ensure efficient and effective coordination among federal entities with responsibility for managing, treating, and curing Parkinson’s and related diseases. [Share your brief – 1-2 minutes – personal connection to PSP, CBD or MSA]. Unlike Parkinson’s, there are currently no treatments for the rare parkinsonian diagnoses of progressive supranuclear palsy, corticobasal degeneration and multiple system atrophy, which are also named in this bill. This legislation is monumental to our community as awareness, support and coordination are keys to improving quality of life for these diseases.

How can our office help?

I am asking [Representative/Senator ___________________] to show their support for our large and resilient parkinsonism community by co-sponsoring the National Plan to End Parkinson’s Act. I am happy to answer questions about my experience with [diagnosis], and I would appreciate a response once [Representative/Senator ______] has decided whether to co-sponsor the bill. Thank you for your time today.
